Xm satellite radio with their instant traffic and weather is great!!!  
Tell the local broadcaters, that they should take a lesson from the folks at XM  
radio.

I am on a busy schedule and I don't have time to listen to endless commercials and  
other garbage to find out about traffic info.

Instant traffic and weather fits my needs to a "T"!!!

I pay for these services monthly and I don't need the NAB telling me what I can  
listen to. The high quality of broadcasting and choices I have with XM are second  
to none in the radio broadcast world. The main reason I switched to XM is because  
of the endless hours of commercials and yakking about nothing on the regular  
broadcast radio stations.

So, tell the broadcasters to hit the road and leave XM radio alone!!!!
